The balance of the classy field was trung out for an eighth of a mile. The sinner was ridden by E. Dugan, the place horse by W. place horse by W. Miller and the third derse by G. Borns. The time was 2-10-4-5.

The race was witnessed by over 10,-00 persons and the forty bookmakers were fairly deluged with wagers on the handicap. Montgomery always ruled lavorite, the odds varying from 11 to 1 to 2½ to 1. He was backed by both table connections and by the public for housands of dollars. Clamor and tromobol, coupled as the Keene entry, were backed from 5 to 1 to 3, while Rifleman was liberally supported at 6 to 1. The odds on the other ten starters ranged from 10 to 1 to 40 to 1.

The weather was cloudy, but the sun broke through a rift in the clouds before the librses went to the post in the big stake.

big stake.

The story of the race is easily told.
Holtman caught them in alignment after a short delay and when the barrier was sprung Hildreth's colors were the first in motion. Dugan shot Montgomery to the front and made every post a winsprung Hildreth's colors were the first in motion. Dugan shot Montgomery to the front and made every post a winning one. The son of Pusara fairly eveled in the going and carried his impost of 128 pounds as if it were a feather. Clamor, with an even break, would have been a Keene contender. The Keene candidate was shut off almost as the horses left the barrier, dropping back to eleventh position in a badly strang out field. Clamor trailed his field until the three quarters pole had been passed, when Miller began to pick up the leaders. In an incredibly short time the game colt had shot into second place and challenged Montgomery in the stretch. The effort, however, was too much for bim and the Hildreth entry had but to gallop under the wire, winning from a field which for class eclipsed by far any previous Burns, bardiesap. Effeman had no excuses. He was judiciously ridden by G. Burns, but was unable to do better than third.

In the fourth race, Ruseimo, the three-ever-old, owned by J. Shields, fell in the course of the race and sustained a broken leg. The horse was shot.

COWBOYS BLUFFED BY THE ROVING REDSKINS

Chief Executive of the State.

From a letter written to Gov. Cutler by Sheriff J. H. Wood of San Juan county, under date of January 17. abundantly supported by the oral tes-timony of former County Commissioner J. F. Barton and County Commissioner G. A. Adams, the lives and property of the residents of the southeastern portion of the county are in imminent

danger.
Mr. Barton and Mr. Adams called upon Gov. Cutler Saturday and dis-cussed the situation thoroughly with him. In the letter of Sheriff Wood, which was under consideration, it was set out that the Sheriff had recently visited the southeastern part of the county and had ascertained there that a band of Indians had met some cowboys, who had driven a herd of cattle upon a mesa, and ordered them to take the cattle back, on the ground that the Indians had the right to the mesa. The cowbovs refused at first, but, after the Indians had drawn Winchesters and threatened to kill them, they look the back track and the Indians drove the

back track and the Indians drove the cattle off the mess.

The leaders of the Indians then skipped. Later, the Sheriff said, he went to Bluff with a warrant of arrest for a number of the Indians, but the inhabitants of that place urged him not to make any arrests, on the ground that if the Indians were aroused they might kill the entire populace. For this reason, the Sheriff refrained from attempting to arrest the Indians.

Sheriff Wood said further that the action of the authorities on the Ute.

Sheriff wood said further that the action of the authorities on the Ute Indian reservation, just over the line in Colorado, was largely responsible for the attitude of the red men, as the authorities had told them that they had the right to leave their reservation

Former Commissioner Barton and Commissioner Adams, who held a con-ference with the Governor, Saturday, corroborated everything said by Sheriff Wood and urged the Governor to take some action to prevent further outrages. Gov. Cutler assured them that he would do everything in his power to relieve the situation, but the proposition is a delicate one and exceedingly difficult to handle.

The Haytien government at once un The Haytien government at once undertook measures to suppress the movement. The American gunboat Eagle was sent to Hayti, and the Navy Department stood ready to send others if required. President Nord was on the point of bombarding St. Marc, but was dissuaded upon the American Minister protesting. The revolutionists sustained another setback by the arrest in New York City five days ago of Joseph Glordani, the agent of the insurgents, on the charge of counterfelling the paper money of the Haytien government. General Firmin, who was the leader of the Haytien revolution of 1902, was also concerned in this movement. At the head of a score or more of exiles he made an unsuccessful attempt last week to land on the Haytien count. The government declared the vessel which carried him to be a pirate and drove him off.

INCREASE OF \$7,000,000 FOR 1908 PENSION ROLL

WASHINGTON, Jan. 25.—Representative Keifer of Ohio, chairman of the subcommittee on pensions of the House committee on appropriations, today announced informally that that committee has agreed to recommend the pensions roll of \$150,000,000 for the fiscal year ending June 30, 1209.

This will be about \$7,000,000 in excess of the pension roll of the present fiscal year. The increase is largely due to the provisions of the McCumber bill, effective in February, 1907, by which the enlargement of pensions in accordance with age and the abolishment of physical examination as a pre-requisite to the establishment of pension claims on account of physical disability were brought out. Chairman Keifer has addressed a letter each to the Secretary of the Interior and Commissioner of Pensions, inviting them to appear next Monday thorning before the sub-committee on pensions and support the recommendation made by them that the number of pension agencies in the United States be reduced to one only at Washington.

The railroaders argue that if Harriman and Gould have gotten together on the coast there is no reason why they shouldn't co the same in Salt Lake, and instead of each spending a million or a miltion and a half dellars to put up separate depots two blocks apart here, creet one union depot large cough to accommodate all the roads that are now tanning into the city or that may run in within the next fifteen years. It ise argued that Harriman and Gould could save about three quarters of a million dellars apiece if they could get together on a union depot proposition here.

Such a project has been discussed here pre and con time and again. It was reported a year or more ago that Harriman and Gould had even tried to come to an agreement on the subject, but had failed. With the immense falling off of business experienced by all the milroads of the country at present and the retirenehment policies which have been put into effect on the majority of the roads, it is only reasonable to believe that if Gould and Harriman could see their way clear to save a half or three-quarters of a million aprices.
